Designing Your Own Course (16:186:856)
Fall 2019
Wednesdays, 4:30-6:30pm
September 11-December 4
Scott Hall Room 105
College Ave Campus

Course Coordinator: Zoë Kitchel, Department of Ecology, Evolution, and Natural Resources
Program Coordinator, Teaching Assistant Project (TAP)

Contact: zoe.kitchel@rutgers.edu

Office hours: After class and by request. Please email with questions and/or to schedule an in-person meeting.

Course Information:
This course guides students through the process of designing a course they might someday teach. This includes preparing a syllabus and supporting documents, identifying readings, planning activities and assignments, and formulating a set of learning goals and assessments. Through this course, we expect that students will be able to use the documents they develop to propose a course at Rutgers and/or provide their materials to potential employers.

Course Format:
Beginning the second week of the semester, we will meet once a week for 12 weeks. Meetings will include seminars, discussions, hands-on workshops, and invited presentations facilitated by faculty and student fellows who are members of the Rutgers Academy for the Scholarship of Teaching and Learning. Supplemental materials for the course will be available online in the course Canvas site.

Prerequisites and Permission Request:
In order to take this course, you must have at least two semesters of college level teaching or teaching assistant (TA) experience OR have previously taken Introduction to College Teaching (16:168:855). To request a permission number for this course, please e-mail Jason Rimmer (jrimmer@grad.rutgers.edu).

Course Learning Goals:
Upon successful completion of this course, students will develop and prepare an original syllabus and supporting documents for the design or redesign of an original college-level course. This includes:

• A course description
• A set of course learning goals and objectives
• A short list of assessments and their weights
• Sample assessments and classroom activities
An outline of course thematic units and topics
A description of course policies

Grading:
This course will be graded on a satisfactory/unsatisfactory basis. In order to receive a satisfactory grade and have the course appear on your transcript, you are required to complete all assignments, attend weekly meetings, and comply with the Course Expectations listed below.

Course Expectations:

● Attend all weekly class meetings (and be on time!). Two unexcused absences will result in the deletion of this course from your transcript. If you must miss a class, please let the instructor know in advance. If you must be absent due to an emergency or other unforeseen circumstances, please notify the instructor by email as soon as possible.
● Be an active class participant. Engage in discussions, participate actively during workshops, and ask questions!
● Be prepared for class. Check the announcements and reminders on Canvas before class each week and complete all indicated assignments by the due date indicated. You may be asked to bring hard copies of your assignments or to complete readings in advance. Be mindful of the assignments that are due each day and come prepared to discuss your work with your peers.
● While using technology is allowed and encouraged (though not mandatory) for the purposes of working on course assignments or taking notes, please remain engaged with the class and your peers. Please be respectful of your classmates and the guest speakers: don’t be distracted or distract others by using electronic devices inappropriately during the class.
● Complete and upload your final syllabus to Canvas before December 3rd at 4:30pm and come to class prepared to share it with the class.

Additional information on Assignments:
● Assignments are designed to help you develop your syllabus over the course of the semester.
● You are required to complete all assignments.
● Though you should be given sufficient time during class periods to work on the assignments, you will also be given time after class if needed to finish the assignments before they are due. In order for each assignment to be considered complete and to ensure you will receive feedback from the instructor, assignments need to be uploaded to Canvas by their due date.
● If you have an excused absence, you will be required to complete and submit the assignment as arranged with the instructor.
● Due dates for all assignments except for the ‘Learning Tool Presentation’ can be found on the class outline below.
- Dates for ‘Learning Tool Presentations’ will be chosen by students on the first week of class
